# Highlights

## Preset and timer

3 major presetting functions allow cooking times to be preset up to 24 hours in advance for steaming, soup/congee and boiling water. Cooking completion time can be set in advance. 7 major functions for timed cooking of up to 2 hours for hot pot, steaming, soup/congee, keeping food warm, quick frying and stir-frying vegetables. Slide the temperature dial up to increase 'hours' and down to increase 'minutes' to make quick and convenient adjustments to cooking times

## 6 menus

The 6 handpicked menus include smart culinary programs to help you make delicious food with ease, whether you're making soup/congee, making hot pot, steaming, frying, stir frying or even quick frying vegetables. Special stir frying function provides 3 minutes of continuous high power heating, especially suited to the cooking habits of Chinese families

## 6 power levels

6 power levels: 60°C, 80°C, 160°C, 200°C, 240°C and 280°C, satisfying your cooking requirements from simmering to stir-frying. Rotate the heating ring or touch "+" "-" to adjust to your required power

## Efficient cooling structure

The fan duct layout, high frequency rotation whirlwind fan, 30 seconds delayed working, spaced heating coil, insulation technology of the top ceramic plate, and high efficiency cooling system all work to extend the service life of the product

## Efficient heat transfer

Efficient heat transfer for fast cooking

## Light and easy to carry

Lightweight body weighing only 2.3kg

## Multiple safety protections

Smart current and voltage detection provides power-off protection in case of abnormalities. Smart temperature detection at the bottom of the pot provides power-off protection in case of over-heating. The cooker turns off automatically after 1 minute if there is no pot placed on it and turns off automatically after 3 minutes if it detects that the pot has boiled dry. Child lock protection helps avoid accidents due to misuse of the product

## Rotating touch technology

Hi-tech touch sensitive controls avoid the physical wear that occurs with traditional buttons through long-term use. Water-resistant and accurate, with long-lasting sensitivity. Adjust cooking times easily and accurately by using the rotating touch controls for ultimate convenience

## Ultra-thin flat panel design

Ultra thin flat panel design, 27mm thickness, with an edge of only 9mm for a luxurious and elegant new experience

# Specifications

## Accessories

- 28cm diameter SUS304 soup pot

## Design specifications

- Panel: A Grade microcrystal glass
- Panel color: Black

## Technical specifications

- Energy efficiency: Level 1

- Rated frequency: 50 Hz
- Rated input power: 2100 W
- Cord length: 1.2 m
- Rated voltage: 220 V

## Dimensions and weight

- Product dimensions (L×W×H): 365×290×39 cm
- Product weight: 2.7 kg
